

Digital Color Card and Corresponding PMS Codes for Napkins and Runners

Below, please select from over 130 colors. We do not stock all of these colors and the mill provides us only with a 2 inch square swatch, so unfortunately we cannot send out swatch samples. Please use the Pantone PMS color code below as a guide for matching.

Please note: not all colors will have an exact match. As each cross-reference is performed colorimetrically, some colors may actually have a better visual match.

Also, please note colors may vary due to dye-lot, indoor or outdoor lighting & other factors.
