

Digital Color Card and Corresponding PMS Codes for Table Covers

Below, please select from 20 colors. We are happy to mail a swatch of the fabric out free if we have it in stock. If we do not have it, please use the Pantone PMS color code below as a guide for matching.

Please note: not all colors will have an exact match. As each cross-reference is performed colorimetrically, some colors may actually have a better visual match.

Also, please note colors may vary due to dye-lot, indoor or outdoor lighting & other factors.
