

## Chair Covers Sell Sheet

We manufacture many styles of chair covers for any type of chair. We have fabric and vinyl materials available in many colors. Our chair covers are a great way to brand your event. The standard styles of chairs are tapered back, square back and round back; however, there are over 80 styles of "standard banquet chairs" which vary slightly in shape, height, width, thickness and style, so each cover will fit your chair slightly differently. We also manufacture chair covers for chairs with arms, and we can add piping to the chair covers. For more information, please visit <http://www.garymanufacturing.com/banquet-chair-covers>.

For an accurate quote, please provide the following information:

- Are you looking for fabric or vinyl?
- Dimensions of chair caps. See how to measure below.
- Color preference.
- Email picture of the chair.

### (1) Chair Measurement

(A) Overall height from floor to top of chair back:

(B) Length of seat: \_\_\_\_\_
