

How to Order the Correct Carrier Attachment

Attachments:

Windshield drapes will hang on your existing track. **Choose the picture that shows how your drapes attach to your track.** If you select 5,6,7, or 8, we will substitute 2,3, or 1 and make your drapes with steel pin hooks.

***Note: #4 and #9 are very similar, but NOT interchangeable.**

They differ in size by 1/4", so measure your existing glide to make sure to order the right one. The #4 carrier can be removed from the tape and fits on 5/8" track; the #9 is permanently riveted to the tape and fits on 3/8" track.

Please be certain which carrier you have!

To Order: visit coachcoordinates.com for a complete list of dealers.
